

Program Analysis

FY 2015

Dewey Original – Staff selection of “Primary Event Type” in Evanced when creating events.

Dewey Corrected – DDL selections for the same list of events.

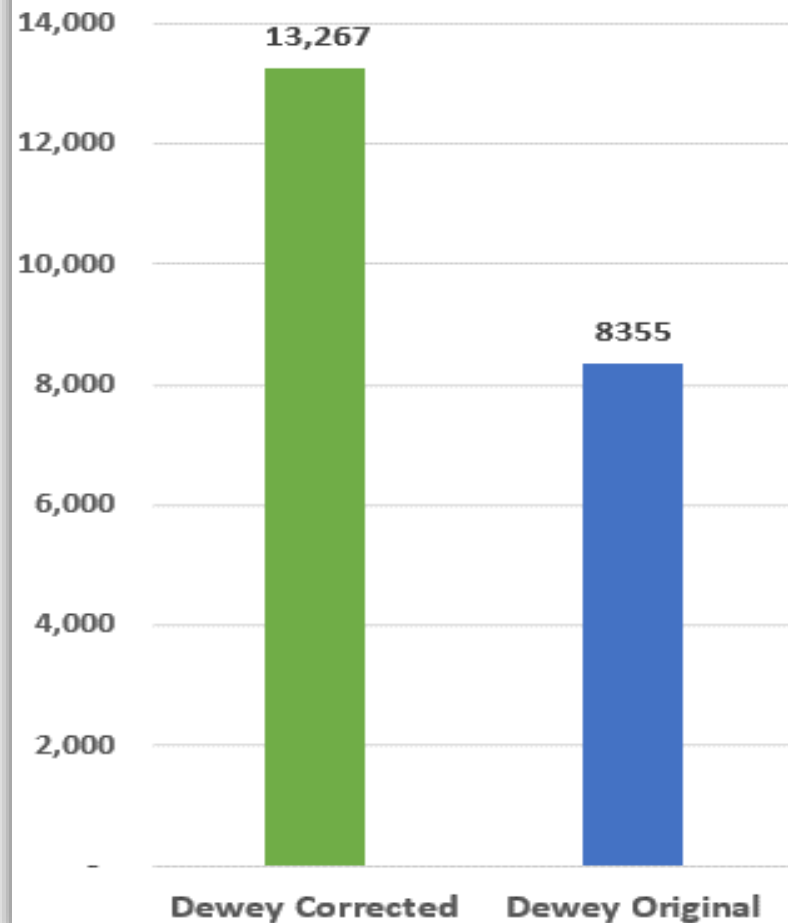

We are undermining
our VALUE

When we look at our
programs by subject area
(Dewey), the original totals
would be over 5,000
programs LESS than we
really offer.

Delaware Libraries
FY15 Programs by Dewey
Comparison of Dewey Totals

| Title | Keyword (s) | Dewey | Primary Event Type | Primary Age Group | Description | Analysis Comments |
|-------------------------------------------------------|------------------|-------|--------------------|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------|
